Joshua Linguet pour info ce canal pourrait être celui à plugger

Et voici mes notes pour la réunion d'aujourd'hui :

#### Appli Ticket

mardi 10 mai 2022

#### 11-44

- Allez direct sur la partie admin pour les admins
- Mettre en place un système de réponses aux tickets
- Mettre une notif à tous les admins quand quelqu'un s'assigne un ticket
- Transférer l'assignation dans un planner
- Une fois un ticket complété => envoyé résolution à l'utilisateur par mail + description & message au canal Teams dédié
- Créer un ticket au nom de quelqu'un d'autre
